

DATA SHEET: BLACKDOWN SEMI-INTENSIVE MIX
PRODUCTS CODES: BHC/SU/SEMI-INT/BULK, BHC/SU/SEMI-INT/SACK

DESCRIPTION:

A blend of water retaining aggregates, crushed brick and organic material mixed to provide a semi-intensive substrate to meet customer specifications.

All substrates are composed of composted material from sustainable sources, the crushed brick element is a by-product or a second from the brick manufacturing industry and therefore contains no demolition waste.

COMPOSITION:

Loose Bulk Density:	850 – 900 kg/m ³
Saturated Weight:	1,100 kg (approx.)
pH Value:	6.5 – 7.5

Available in: Plastic sacks on pallets, bulk bags & loose bulk.

SAFETY DATA

In the condition sold, the product does not present a hazard to health. The products are not required to carry a hazard label.

FIRE

There are no direct risks of fire or explosion from this product.

OFF-LOADING

Ensure that the lifting equipment is suitable and will carry the weight.

FIRST AID

Where particles enter the eye, irrigate well with copious amounts of clean water. Seek medical attention, if necessary. Inhalation of dust, remove to fresh air and seek medical attention, if necessary.

DISPOSAL

Waste from clay brick is easy to handle, non-toxic and inert. However, its storage and disposal should be carried out in accordance with section 34 of the Environmental Protection Act: Waste Management – The Duty of Care.
